

# Get in the Holiday Spirit!

## During December, donate a stuffed animal or make a contribution to Teddy Bears for the Tree House's Children

During the month of December, the Montgomery County Medical Society Alliance and MCMS will collect new teddy bears and other plush stuffed animals to be given to children who may have suffered neglect, physical and/or sexual abuse. The Tree House Child Assessment Center of Montgomery County assesses approximately thirty children each month. The Tree House provides a safe, neutral, culturally-sensitive, child-focused setting, and the stuffed animal provides comfort at a very difficult time for the child.

Make this collection of stuffed animals a part of your holiday staff party. Bring a new 12+” stuffed animal instead of or in addition to gifts to exchange with each other. Drop the stuffed animals off at any collection site between now and January 10th. Donations from you, your staff, and your patients are gratefully accepted as well.

Also, monetary contributions in the form of a check may be mailed to the MCMS Alliance, 15855 Crabbs Branch Way, Rockville, MD 20855. Your donation is tax deductible. Show your generosity and concern for children in our community by donating stuffed animals which provide comfort to abused and neglected children.

*It's what the season is all about.*
